Notes are attached of the January Station Meeting.

Updates as of 1/26/2018

Dave has signed the special land use application that was filled out and then sent it to OHM. It was sent in time to make the February board meeting.

The application for the land split was filled out by the chief and given to the purchasing agent to have signed by the property owner.

Dave received certified survey of the property from Midwestern consulting and it was attached to the application documents.

Next station meeting is scheduled for February 14.
